

- a. Major Features/Screens - Include short descriptions and screenshots of each (at least 3 of these)

Learn (Helpshift knowledge base/database):

- Learn is our home for educational content. It's a knowledge base with hundreds of questions and answers written for all levels of health literacy on a range of reproductive health topics, including those not traditionally covered in mainstream pregnancy apps and those with rare and complex conditions

Find Care:

- Find care allows users to find care near them at any of the BIDMC health centers in Boston. Users will have the ability to visit the website (direct OBGYN link), call the health center (OBGYN phone number), and get directions to health center using google maps.

Talk to A Doctor (Helpshift chat feature/database):

- Talk to a doctor is chat feature that allows users one-on-one chat with world class doctors trained to treat women's reproductive health conditions. The user is required to log in with a name (and optional email) to continue.

- b. Optional Features - Include specific directions on how to test/demo each feature and declare the exact set that adds up to ~50 pts

-15 pts for consuming a web service (Helpshift), 15 pts for GPS/Google maps services, 15 points for camera, 15 points for opening a web service

-Helpshift chat: user enters a name and optional email address and a message, and clicks the mail icon in upper left to start chat

-Helpshift FAQ: click any section to go more specific, navigate with tabs to different sections

-Camera: Click camera button to take picture, or open the saved photos

-Open website: Clicking home button to open website redirects to browser

- c. Usage - Include any special info I need to run the app (username/passwords, etc.)

- i. If you'd like to check out the helpshift backend:

1. Visit: <https://connexus.helpshift.com/admin/issues/>

a. Login: allocate+connexus@gmail.com

b. Password: mn2bSubu3U^w
