

Feature #	Feature Description	Test Case #	Test Case Description	Fail/Pass?
1	Helpshift Chat	1	User doesn't enter name, enters email and message. Error under Name area, says "please enter a valid name"	pass
		2	User enters name and invalid email, error under email says "please enter a valid name"	pass
		3	Valid email and message and name, clicks send, goes to message screen	pass
	Helpshift FAQ	1	User clicks button, can go further or not, same reaction no way to get error messages	pass
	Camera	1	No storage, error message saying can't do it	pass
		2	User takes a photo clicks save	pass
	Google maps	1	User clicks deny coarse location access , it shouldn't matter because the MapView doesn't use the user's location, only lat and long of the health center selected	pass
	Go to Website	1	Opens external browser, if user doesn't have internet it just opens and says it won't load	pass
